Let’s make milestones together.
Guided by the school’s educational philosophy, the College Department envisions itself to be a leading institution of higher learning committed to deliver academically excellent, value-laden and service-oriented programs that imbibe a Chinese-Filipino cultural identity.

Inspired by this vision, the school is committed to produce graduates who are globally competitive, ethically and socially responsible professionals with integrity who are proud of their cultural heritage.

Diligence Honesty Integrity Respect Courage Compassion Equality

1. A pool of dedicated and competent faculty, educated in institutions abroad and in the country’s best universities, such as UP, Ateneo, La Salle, and UST, all of whom are trained in their fields and with years of relevant industry experience;
2. Laboratories furnished with equipment essential to learning the various facets of industry practice;
3. An upcoming state of the art building in Quezon City to house the growing College Department, to be equipped with the latest technology for a more innovative and responsive education;
4. A network of supportive Chinese-Filipino individuals and corporations, through whose generosity of spirit PCC has been able to offer scholarships and financial grants to deserving students; and
5. A conscientious community that is conscious of its heritage, as it continues to emphasize and strengthen its program for Mandarin language education.

The PCC Edge

Philippine Cultural College, the nation’s first and oldest Chinese-Filipino secondary school and recently a complete educational system, prides itself with its rich history of youth development and nation-building through education. As such, PCC ensures that it gives only the best to those whom it is committed to serve, the students. Among the significant features of the College Department, Manila Campus, are the following:

Through the generosity of its extensive network of alumni, PCC was able to acquire a 2,500-square-meter lot for a ten-storey building, located on D. Tuazon corner Cuenco avenues in Quezon City. In 2012, PCC held the groundbreaking ceremony signaling the commencement of the construction of the new building. By year 2015, PCC hopes to be able to start operations in the new facility as part of the continuing expansion of its College Department. The new building will be equipped with the latest technology and state-of-the-art equipment, as part of the institution’s comprehensive response to the growing demand for tertiary education responsive to the needs of the market. The new building will have air-conditioned rooms that are conducive to learning; an up-to-date library; an auditorium; laboratories for the various course offerings; a gymnasium; and a secure parking lot. This facility, the institution’s flagship project as it nears its centenary, serves as a testament to PCC’s unwavering commitment to quality yet affordable education, as it likewise embodies the PCC promise to continue molding the nation’s youth.
